Class 3A Comments:

Balance was great in many of the wines, minerality (flint) and fruit consistent in bracket, better wines had layers of texture and clear varietal. Consistency of winemaking across many of the wines, a challenge to create differentiation in this variety. Producer 'DNA' a positive for interest.

This class demonstrates the challenges of the variety. Many bronze medals but few standouts. Excessive oak, VA and brett were problems. The sound wines lacked varietal typicity. Still work to be done as can be seen by the lack of silver and gold medals.
